KANJIRAPPALLY

Reg. No: AJC16MCA-D8

ACKNOWLEDGEMENT

First and foremost, I thank Almighty God for his gracious guidance through the project. I take this opportunity to express my gratitude to all those who have helped me in completing the project successfully

It has been said that gratitude is the memory of the heart. I acknowledge my deep sense of gratitude to our Manager **Rev. Fr. Dr. Mathew Paikatt** for providing all the infrastructural facilities for us, our Principal **Dr. Z V Lakaparampil** for providing good faculty for guidance.

I take the immense pleasure in expressing my thanks to Head of the Department of Master of Computer Applications, **Fr. Rubin Thottupuram**, for his kind patronages in making this project a successful one. I would like to extend my sincere thanks to our Coordinator **Ms. Jetty Benjamin** and my Project guide **Ms. Lisha Varghese** for their guidance and cooperation, without which this would not have been a success.

I am indebted to my beloved teachers whose cooperation and suggestions throughout the project which helped me a lot. I also thank all my friends and classmates for their interest, dedication and encouragement shown towards the project. I convey hearty thanks to parents for the moral support, suggestion and encouragement to make this venture a success.

AMAL K JOSE

ABSTRACT

‘SafeDocx’ is an online system for storing digital documents and certificates efficiently and safely with the support of online verification/notary system. Through this application, users can share their documents and certificates to any of the person or company with high secure way. This will possible through the short-links, which can be customized at any time.

Here users can create a free account on SafeDocx, and can be store documents and certificates. There are only one conditions on the uploading documents is that, the format of the uploading documents must be in .PDF format. It is implemented due to keep the documents or certificates in a standard format.

When user added a document, here can be verified their documents for future use easily and efficiently with the support of Attesters available in their area. The verification process need to be done manually. This will ensure the originality of documents and can be prevent form misusing this service.

Through this system, it will help in future verification of documents or certificates easily with a single click process from any of the organizations and even a single person. And also can share documents easily and securely to anyone with customizable short-links.

Here, we can ensure the security of account by the mobile number and email verification system. The account creation is also implemented with very simple steps.
